

RECO PROCESS PUMPS

API-610 10th Edition Pumps

High temperature refinery applications (Upto 150° C)

- ❖ Center supported high temperature pulp digester circulation, evaporator circulation, steam jacketed 60% solid black liquor applications pumps with a proven record of 10+ YEARS of continuous operation.
- ❖ Our API 610 10th edition heavy duty refinery pumps handle high temperatures, has high energy efficiency, result of a robust reliable design.

MOC: Duplex steel / Sanicro 28 / Hastelloy C-2000, G-30
