

RECO PROCESS PUMPS

Vertical Phosphoric Acid Pumps

Double suction, double discharge style shaft overhang design

- ❖ World's first metallic phosphoric acid plant, Hexafluorosilicic acid (H_2SiF_6) HH & DH application pumps.
- ❖ Absolutely trouble free vertical phosphoric acid cold well / hot well pumps.
- ❖ Heavy duty phosphoric acid filter feed, recirculation, cross-feeder pumps in continuous operation for 2+ YEARS.
- ❖ Common model phosphoric acid filtration area, acid transfer, sludge pumps in continuous operation for 5+ YEARS.
- ❖ Copper & Zinc plant slurry pumps with a proven record of 5+ YEARS of continuous operation.
- ❖ *This is a unique design with very high reliability.*

MOC: Duplex steel / Sanicro 28 / Hastelloy C-2000, G-30
